On-going Program One-time Program | Virtual Face to Face

Description

The community committee would like to create virtual communities, connected by mutual hobbies and common interests. The Partnership networks have been proven as a strong tool for virtual connections during Covid-19.

Current networks:

P2G Book Club - following six, very successful Zoom gatherings, about six marvelous Israeli / American and Hungarian books, with a growing community of over 200 book lovers from all our partnered communities, we would like to continue. Our next gathering will be on August 29, about the book *The Orchard* by Yochi Brandes. Each participant reads the book in the language he/she prefers. Every 3-4 months we choose on a new book, announce it, and set a date for a new gathering.

P2G Film club - Following the success of the P2G Book Club, we would like to create a P2G Film Club with both virtual and live movies screening and talkbacks. This film club will be able to collaborate with the Jewish film festivals in our partnered communities and to bring the partnership ingredient to the activities.

Rosh Chodesh - connecting women of all ages - a virtual program for women from the Western Galilee and the partnered communities. We would like to have three virtual mifgashim to discuss mutual dilemmas, goals, and interests.

The Committee is welcoming the formation of new communities.
All we need is someone with a passion and an idea.
